

LEEGOO BUILDER

The CPQ system

THE INDUSTRY SOLUTION FOR CABLE-PROPELLED SYSTEMS

Create precise proposals faster and better

When selling complex and multi-variant products, it is more important than ever to offer your customers an individual as well as technically and economically optimized solution as quickly as possible. The precise management of the requirements is a central aspect.

The LEEGOO BUILDER CPQ software (Configure Price Quote) offers you an integrated solution for fast and correct proposal generation and supports you throughout the entire proposal process.

As an industry solution for cable-propelled systems, LEEGOO BUILDER provides you with the following:

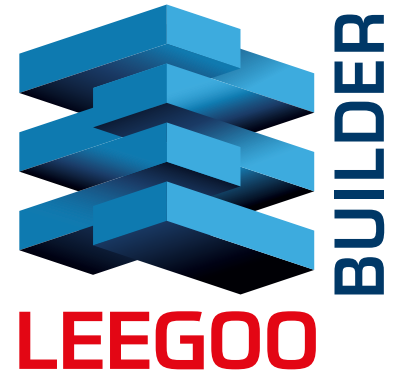

- Sample solutions for the proposal structure
- Sample solutions for product configurators
- Pre-set proposal calculation scheme
- Pricing with surcharging, discounting, market price setting
- Calculation sheet for project proposals (profit and loss account)
- Concept and structure of proposal documents as well as design proposals
- Predefined analyses & reports
- Approval process & workflow

For you, this means, among other things, a **reduction in costs, time and effort** during the implementation phase as well as **time savings, transparency and traceability** in the proposal process.

Would you too like to optimize your proposal process?

Then please contact us, free of obligation, for a technical discussion and a practice-oriented demo!

YOUR BENEFITS

Time savings
in the sales process,
error prevention

Transparent and
traceable proposal
calculation

Product modularization
and component
standardization

Uniform and modern
appearance of your
proposal documents

Creation & maintenance of
your product configurators
by your own departmental
experts without any need
for programming skills

Worldwide availability of
product knowledge through
easy-to-use configurators -
everyone calculates
the same way!

From flexible incorporation
of special features
to free project engineering
of special machine
solutions

Consistent
proposal process,
online, offline and on
the web

Well-known manufacturers of cable-propelled systems already successfully rely on the LEEGOO BUILDER CPQ system

Wolfurt, Austria
